

# COMMAND 1A

## Command Operations for the Company Officer

Course Outline

## Course Outline

**Course Objectives:** To provide the student with...

- a) An introduction to the principles of command.
- b) Overview of the concepts of command safety and the risk management process.
- c) Preincident planning considerations.
- d) Command considerations at structure fire incidents.
- d) Company Officer initial actions at an incident including the development of incident priorities, strategy, and tactics.
- f) Information on the roles and responsibilities of a Company Officer for post-incident actions.
- e) The opportunity to gain experience in a controlled environment through structure fire incident simulations.

**Course Content ..... 40:00**

**Unit 1: Course Introduction (1:00)**

1-1 Orientation and Administration ..... 1:00

**Unit 2: Introduction To Command (3:30)**

2-1 The Principles Of Command ..... 1:00

2-2 Operational Leadership And Ethics For The Company Officer ..... 1:00

2-3 Purpose And Utilization Of SOGs/SOPs ..... 0:30

2-4 Local, State, And Federal Mutual Aid Resource Availability ..... 0:30

2-5 NIMS/ICS Overview ..... 0:30

**Unit 3: Command Safety (2:00)**

3-1 The Five-step Risk Management Process ..... 1:00

3-2 Concepts Of Decision Making ..... 0:30

3-3 Initiating And Handling A Refusal of Risk ..... 0:30

3-4 Considerations for Emergency Responder Rehabilitation ..... 0:30

**Unit 4: Structure Fire Preincident Considerations (5:30)**

4-1 Preincident Planning For A Structure Fire Incident ..... 0:30

4-2 Structure Profiles And Hazards ..... 1:30

4-3 Fire Behavior Within Structures ..... 1:00

4-4 Building Systems And Equipment ..... 1:00

4-5 Determining Fire Flow And Fire Stream Application ..... 1:00

4-6 Interagency And Intra-agency Roles And Responsibilities For A Structure Fire Incident ..... 0:30

# COMMAND 1A

## Command Operations for the Company Officer

Course Outline

### Unit 5: Command Considerations At Structure Fires (12:30)

5-1	Sizing-up A Structure Fire Incident.....	1:00
5-2	Report On Conditions (Initial Radio Report) .....	0:30
5-3	Determining Resource Requirements .....	0:30
5-4	Apparatus Placement Considerations .....	0:30
5-5	Determining And Implementing The Initial Incident Action Plan For A Structure Fire Incident .....	3:00
5-6	Utilizing Tactical Worksheets .....	1:00
5-7	Evacuation Considerations For A Structure Fire Incident.....	0:30
5-8	Considerations For Continuing, Transferring, And Terminating Command Of A Structure Fire Incident .....	1:00
5-9	Occupant Support And Assistance .....	0:30
5-10	Preparing Post-incident Analysis (After Action Report) And Documentation (RLM).....	1:00
5-11	Tactical Considerations Specific To A Multi-family Dwelling Structure Fire Incident .....	1:00
5-12	Tactical Considerations Specific To A Multi-occupancy Structure Fire Incident .....	1:00
5-13	Tactical Considerations Specific To A Commercial Occupancy Structure Fire Incident .....	1:00

### Unit 6: Applying Initial Incident Actions For A Structure Fire (Scenario Based) (11:30)

6-1	Procedures For Applying Initial Incident Actions For A Structure Fire .....	0:30
6-2	Scenario-based Exercises.....	11:00

**Formative Tests..... 3:00**

**Summative Test..... 1:00**
